# ABOUT THE ESCAPE 17B

**The Escape 17B trailer is an ultra-lightweight option for families seeking the perfect camping adventure.** Most customers view them as the ideal crossover from tent camping. The Escape 17B is particularly suited for young families and adventurers with smaller vehicles.

The Escape 17B includes a wet bath and three floor plan variations. The 17B F1 includes a two-person dinette in the front and a larger four-person dinette in the rear. The 17B F2 plan includes a two person dinette in the front and a permanent two-person bed in the rear. The 17B F3 includes a permanent one-person bed in the front and a four-person dinette in the rear. The 17B F1 and the 17B F3 have the option to add the “Gaucho Bunk” which transforms the smaller dinette into a sleeping

area for two. The gaucho bunk has a 200 lbs max capacity.

The Escape 17B trailers are highly maneuverable on narrow roads and its shorter length makes tight turns a breeze to handle. With a dry weight of only 2640lbs, the Escape 17B has been designed specifically for mid sized vehicles such as SUVs and mid-sized trucks with a minimum towing capacity of only 3500lbs.

The frame is constructed with box steel and a rubber ride torsion axle suspension creating a solid foundation and smooth ride. The interior is professionally finished and offers your choice of Maple, Contemporary, or nine upgraded cabinetry options. It features large windows, durable high-grade vinyl flooring, and a distinctive insulated vinyl headliner and wall covering for added comfort and style. Every Escape trailer includes a long list of standard features and an extensive options list available for even more personalization.

Every trailer also comes with a limited two-year warranty. The body of the trailer is constructed from top and bottom of fiberglass shells which are bonded together with glass

reinforced fiber to create a true one-piece unit.

The roof has a raised dome allowing water to run off rather than pooling. This greatly reduces any chance of water penetration while maintaining a strong, long lasting lightweight trailer.

Our customers love the fact that Escape trailers offer abundant interior storage space, especially in the large overhead cabinets. Light-colored hygienic wall coverings and large windows throughout each unit creates the feel of a more roomy, bright space.

Escape trailers utilize real wood for the cabinet doors along with plywood for tables, countertops, and the floor. The Escape 17B is the perfect blend of high-quality, design and function

# E17B BASE FEATURES
