

Escape 5.0

ABOUT THE ESCAPE 5.0

The Escape 5.0 is our tandem axle fifth-wheel trailer. All Escape travel trailers are manufactured with a 100% molded fiberglass body creating a true lightweight trailer, with dry weights starting at 3910 lbs. for the E5.0. The E5.0 comes standard with a large two-person bed in the front, full wet bath, and a dinette that converts to a two-person bed in the rear.

The frame of the E5.0 is constructed with box steel and a rubber ride torsion axle suspension creating a solid foundation for a smooth ride. The interior is professionally finished with your choice of Oak, Maple, or Contemporary cabinetry, large windows, high-grade vinyl flooring and a unique insulated vinyl headliner/wall covering.

Every Escape trailer includes a long list of standard

features and an extensive options list available for even more personalization. Every trailer also comes with a limited two-year warranty. The body of the trailer is constructed from top and bottom of fiberglass shells which are bonded together with glass reinforced fiber to create a true one-piece unit.

The roof has a raised dome allowing water to run off rather than pooling. This greatly reduces any chance of water penetration while maintaining a strong, long-lasting lightweight trailer.

The Escape's aerodynamic and lightweight design eliminates the need to invest in a large towing vehicle in contrast to a conventional RV trailer. The Escape 5.0 is a tandem axle fifth-wheel trailer designed to be towed by a standard half-ton pickup truck.

Our customers are pleased that Escape trailers offer abundant interior storage space, especially in the large overhead cabinets.

Light-colored hygienic wall coverings and large windows throughout each unit creates the feel of a more roomy, bright space.

Escape trailers utilize real wood for cabinet doors and plywood for tables, countertops, and the floor. Escape 5.0 is a perfect blend of high-quality, design and function both inside and out.

E5.0 BASE FEATURES

CHASSIS

- x2 3500 lb Torsion Rubber Ride Suspension
- 4 Balanced 15" Radial Tires & Steel Rims (8 ply)*
- Full Size Spare Tire with Cover
- Electric Brakes
